WORK EXPERIENCE

Unity Game Developer

05/2023 – 03/2026

Zoomob Limited • Hong Kong

- Shipped and continuously updated visual novel titles featuring AI chat, Wardrobe, Comic systems, new stories, polished UI, visual effects & animations.
- Led backend migration from legacy server to PlayFab; packaged assets into downloadable bundles for efficient updates.
- Integrated production SDKs (Firebase, AdMob) and resolved critical bugs to maintain high player retention.

Game Level Designer Intern

07/2022 – 08/2022

Trefle & Co. Game • Hong Kong

- Designed & built ~20 polished 2D platformer levels for Super Run World: Jump Platform using Unity and shared team assets.
- Performed rigorous playtesting and optimization to improve level flow, difficulty curve and overall player experience.

KEY PROJECTS

Moonlight Ascension ★ 1M+ Downloads

Werewolf-themed Otome Visual Novel • Mobile (iOS & Android)

Feature-rich visual novel with AI chat, dynamic wardrobe, comic sequences and ongoing story expansions. Continuously updated with new content & systems.

[App Store](#) • [YouTube Preview](#) • Similar titles: Crush Island, Spellbound

Dream Decor: Home Makeover

3D Decorating Game • Mobile (iOS & Android)

Creative home renovation game where players design and remodel rooms, kitchens, gardens and luxury spaces with full creative freedom. Features global design contests, daily challenges, leaderboards, diverse style themes (Scandinavian, Bohemian, Minimalist, etc.), and continuous content updates with new furniture collections and seasonal events.

[Google Play](#) • [App Store](#) • [YouTube Preview](#)

Cyberpunk Rock

Music + Action Hybrid • Metroidvania + Rhythm Combat • PC

Innovative fusion of rhythm game and stylish hack-n-slash. Players battle enemies by hitting notes in time with the soundtrack while exploring a non-linear Metroidvania world.
